MOORESVILLE, INDIANA 46158

To Potential Veneer Services Customer,

We installed a new Hawa debarker this spring. Veneer Services followed through on the project until it was completely installed and running at full capacity. They have also been great in supporting the equipment.

If you are unsure about doing business with Veneer Services, please let me say this, Veneer Services is one company who is knowledgeable about all areas of the hardwood face veneer industry. This helps in many ways when making decisions about equipment. Finally, Veneer Services as a company who is bringing new ideas to the table, and helping to preserve the future of our industry here in the United States.

Robert Mathers.
