# BELT CONVEYOR

Belt conveyors from Veneer Services® are the premier choice for a horizontal or low-angle conveyance system. Built without catch points, our belt conveyors will transport your bulk materials without snags that slow production. They're safe and make for easier clean up.

## LESS MESS

Rollers only used in tail section, so dust collects in one spot

## NO SNAGS

Seamless tray:  
Sections welded together  
and ground smooth

## SAFE OPERATION

Powered by direct drive  
No pulleys  
No idler rollers
